LUNCHBOX MOMENTS BY ARTIST AMIE BANTZ

ON DISPLAY MARCH 27 - APRIL 7 @ SUB (NEAR BLUE APPLE CAFE)

Lunchbox moments are the formative occurrences in many Asian American children's lives where a traditional Asian meal is eaten at school and peers in the lunchroom have some reaction, whether it be positive or negative. These stories make up a collective identity that is equal parts profound, beautiful, comical, and heartbreaking. In order to share these stories and empower the AAPI community, artist Amie Bantz has created an art installation: *Lunchbox Moments: Share Stories. Stop Hate*. Bantz collects narratives from members of the AAPI community and adheres their stories onto spray-painted lunch boxes. This visual representation of storytelling showcases the Asian-American experience. It empowers marginalized voices by providing a platform to raise awareness and eliminate hate in the AAPI community.
